Surveys

Since the launch of the new Sunningdale Parish Council website in August 2022, residents have been invited to complete surveys on a variety of topics.

New Website Survey – August 2022

72% of residents would visit the new website for information on news and events. Upcoming projects, allotments and council meetings were also of key interest. 69% of surveyed participants said it was 'very easy' to navigate around the website.

Dog Waste Bins Survey – November 2022

The top locations of people surveyed who thought an extra dog bin would be most beneficial were the entrance to the public footpath from Onslow Road and Whitmore Lane. We will work to install an additional dog bin in the most preferred location early in 2023.

Community Infrastructure Levy (CIL) Survey – December 2022

We asked residents for their views on how CIL funds (CIL is the way the Council collects financial contributions from developers to help pay for new and improved infrastructure, which mitigates the effect of development) could possibly be spent on the community. 49% of residents surveyed would like to see improvements on Walkways, Pavement Lighting and Highways. There is also a high demand for more Health and Community Facilities around the village.

Sunningdale Parish Council will ensure that feedback on the results of any past or future surveys will be made available to members of the public, where appropriate, through the minutes of meetings at which the results are discussed.
