

Motion to consider amendment to the resolution of 4 October 2022

Background

This funding request from Holy Trinity School PTA was considered and approved at the council meeting, 4 October 2022, the resolution is recorded as follows:

44 / 22 / 2 The council received a grant application under the CIL Stakeholder fund from Holy Trinity CofE Primary School. The Chairman invited views from all council members prior to moving to vote as this request came with no recommendation from Committee or Lead Member.

The following comments were made:

- Confirmation from the Finance Committee that this grant comes within CIL.
- The additional space would be useful to use as overflow parking for the playground, however the council doesn't wish to commence a sequence of building additional car parks
- It is clear to see how busy pick up and drop off is at the school.
- The provision will help the residents on the main roads where staff are using the road from very early in the day which causes congestion.
- If it can be used as overflow for the park it would potentially prevent people circling the roads looking for car parking in the busy periods at the park.
- An overflow car park very important to keeping the park visitors safe.
- A question was posed as to whether it really does benefit the community and not just the school.
- The council's standing on climate change needs to be clarified.
- The alternative would be to use the London Road carpark which is half a mile away.
- The provision of the parking outside school hours should be a condition of the funding.

RESOLVED: That the grant of £20,000 was awarded conditional on the use of the car park being made available for all other users outside of school operation hours and to be clearly signposted to the local community.

For: Cllr Buxton, Cllr Booth, Cllr Bains, Cllr Penney

Against: Cllr Pike

Amendment before Council

Due to the conditions placed upon the grant award, conversations have taken place between the council officers and the school governors with the following terms of use being proposed by the school to comply with their safeguarding and employment obligations.

Out of Hours use of Holy Trinity CE School Car Park

Proposed: Agreement between Holy Trinity School and Sunningdale Parish Council

This agreement sets out the terms of use:

I. If use of the car park is requested out of care-taker's working hours (after 6pm), access to open security gates will need to be provided by a nominated member of the Parish Council to ensure access is secure. It is the nominated members responsibility to ensure the gates are closed and the site secure.

II. Any vehicles parked in the car park are left at the owner's discretion. Holy Trinity CE Primary school does not accept any responsibility for loss/theft or damage to vehicles/property.

III. Vehicles left overnight in the car park will be remove at the owner's cost. Sunningdale Parish Council is responsible for arranging the removal of any vehicle left overnight.

IV. Holy Trinity CE Primary School staff members and club providers always have priority over car parking spaces including school holiday and term time.

Resolution

To re-approve the grant funding on the basis of the terms of use as detailed by Holy Trinity School.
