

Application Number	Address	Planning Application Details	Parish Council Comment	RBWM Planning Decision	RBWM Extra Details
Aug-25					
25/00751	Clevedon House 3 Ashwood Place Ascot SL5 9ND	T1 - Yew - reduce height by 3m to a final height of 5m, T2 - Yew - reduce height by 3m to a final height of 4m, T3 - Oak - fell (009/2001/TPO).	The Parish Council requests that RBWM refer this application to the Borough's Arboricultural Officer to examine the trees in detail.	Application refused 14 July 2025	The density of the trees is not considered to be unusual and the proposed significant reduction to the yews and removal of the oak is likely to harm and erode the woodland. No significant defects have been identified in the application that would require the reduction or removal of these trees.
25/01427	Parkside Broomfield Park Sunningdale Ascot SL5 0JT	New front boundary treatment, 1no. access gate and 1no. pedestrian gate (retrospective).	The Parish Council has concerns that the application is lacking credible historical information to compare the prior street scene and driveway to the current. The actual plot and diagrams do not match. The Parish Council requests that RBWM refer this application to the Borough's Arboricultural Officer to examine the RPAs of the remaining tree.	Application Permitted 20 July 2025	Past images of the boundary indicate that the original boundary was a low timber fence, which would have been more consistent with the prevailing character of the area. However, the current railings are open in design and are softened by a hedge behind, which reduces their visual impact. Although the treatment introduces a boundary that is untypical of the area, it does not appear overly dominant or out of place due to the landscaping present.....The boundary treatment is not considered to have caused harm to existing trees and the RBWM Trees Team have raised no objections.
